Address Langfeldstraße 1, Erlangen, Germany - 91058
Languages English - C1 | German - A2 (Progressing)

EDUCATION

Master of Science in Data Science

Apr 2026 – Present

Specialisation: Artificial Intelligence & Machine Learning

Friedrich-Alexander-Universität

Erlangen, Germany

Bachelor of Science in Computer Science

Jun 2020 - May 2023

SRM Institute of Science and Technology

Chennai, India

Academic Thesis: Enhanced Customer Content-Based Recommendation System | [Publication Link](#)
Python, Deep Learning, Optimisation, Flask, Recommender System

- Published a **Content-based filtering recommendation system** at NCECA-2023, evaluated with AUC, log loss, and recall — outperforming collaborative and hybrid filtering approaches in recommendation accuracy.
- Built a dual neural network with a custom **cost function and L2 regularisation** (Adam optimiser), reducing overfitting on sparse user-movie data and improving model generalisation.
- Increased recommendation efficiency across large item catalogues by implementing a **Retrieval and Ranking** pipeline, eliminating computational overhead without loss in accuracy.

CERTIFICATIONS AND SKILLS

SKILLS

Artificial Intelligence : Gen AI | Agentic AI | RAG | Responsible AI

Machine & Deep Learning : PyTorch | Transformers (Hugging Face) | Computer Vision
Natural Language Processing | Recommender Systems

Data Analytics : SQL | Excel | Database systems | Snowflake | Tableau |
PySpark (Beginner) | Tableau

CS Fundamentals & Tools : Python | Data Structures and Algorithms | Cloud | Github |
Networking | VS Code | Git | Software Engineering | Docker

Mainframe Skills : Tivoli Workload Scheduler (OPC) | JCL | UC4 | HMC | SDSF
Maximo | ISPF | TSO | Service Now | ETL Workflows (Jobs)

CERTIFICATIONS

- Azure AI Fundamentals (AI 900) - Microsoft ([Certification Link](#))
- Foundation Level in Programming & Data Science - IIT MADRAS. ([Certification Link](#))
- Google Data Analytics Professional Certificate - COURSERA. ([Certification Link](#))
- Stanford Supervised ML - Coursera ([Certification Link](#))

PROFESSIONAL EXPERIENCE

Technical Engineer - Infrastructure Operations

Sept 2023 - Mar 2026

KYNDRYL INDIA | [Experience Letter link](#)

Bangalore, India

- Mentored 4 junior engineers and led project-wide **knowledge transition** for a large-scale insurance operations migration, ensuring team readiness and operational continuity.
- Led mainframe operations for **Honda, TATA Steel, ASR, and Ethiniki Insurance**, driving the end-to-end transition of Ethiniki Insurance to Kyndryl's modern digital workplace.
- Managed and monitored ETL batch workflows and scheduled jobs across 4 enterprise clients, maintaining 99.9% pipeline reliability while overseeing end-to-end system lifecycle, including upgrades and migrations with minimal downtime.

Marketing Analyst Intern

Aug 2022 - Jan 2023

LYNKREAD | [Intern Certificate Link](#)

- Conducted **data analysis** to identify customer segments on LinkedIn, utilising analytics to develop targeted content strategies, optimising lead generation and marketing conversions.
- Analysed **engagement metrics** (likes, comments, shares) to evaluate content performance; leveraged data-driven insights to inform content development and improve audience interaction across digital platforms.

Analytics Intern

Mar 2022 - Aug 2022

PK INNOVATIVES | [Intern Certificate Link](#)

- Developed and optimised dashboards using SQL and Tableau, streamlining data analysis and visualisation for better tracking of **key performance metrics** and **operational efficiency**.
- Enhanced **data integrity** by implementing robust cleaning and validation procedures, improving data accuracy for more reliable insights and supporting advanced software model analyses.
